DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 31-March-2003 has been entered.

Remarks

2. In response to communications filed on 31-March-2003, claims 1, 10, 14, 17, 20-21, 25-26, 31, and 33. Claims 1-10, 12-21, 25-26, 31-36 are presently pending in the application.

Claim Rejections - 35 USC § 112

- 3. The following is a quotation of the first paragraph of 35 U.S.C. 112:
 - The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
- 4. Claims 1-2, 4-10, 12-13, 17, 20, 31-36 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The newly added limitation of "inside each layer" does not appear to be described in the specification.

Application/Control Number: 09/717,698 Page 3

Art Unit: 2164

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

6. Claim 3 is rejected under 35 U.S.C. 102(e) as being anticipated by "Void Warranty", Markos, MaxPc, October 2000, www.maxpc.co.uk, herein referred to as "Void Warranty" article.

As to claim 3, "Void Warranty" article teaches a security enclosure, comprising: an electronic assembly; a tamper respondent wrap secured at least partially around the assembly, wherein the tamper respondent wrap includes an adhesive inner surface that adheres the wrap to the electronic assembly (see the fourth paragraph).

Response to Amendment

7. The examiner notes that claims 10, 17 and 33 appear to be allowable over the prior art if amendments addressing the rejections under 35 USC 112 first paragraph were made.

Allowable Subject Matter

8. Claims 14-16 18-19, 21, and 25-26 are allowed.

Application/Control Number: 09/717,698

Art Unit: 2164

Conclusion

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jacob F. Betit whose telephone number is (571) 272-4075. The examiner can normally be reached on Monday through Friday 9 am to 5 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Charles Rones can be reached on (571) 272-4085. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
